

Seeking a Professional Engineer for a Full Time, Regular Employee position located in Clare & West Branch, Michigan

Lapham Associates, a full service consulting firm that provides engineering, surveying, environmental and planning services to clients throughout Michigan, is seeking applicants who have a bachelor's degree in civil engineering from an accredited institution and who have at least 5 years of experience with a civil engineering firm. Candidates will be working on a wide range of projects. Applicants must have successfully completed the E.I.T. exam, be licensed with the State of Michigan, and have experience in 2012 AutoCAD Civil 3D.

The successful candidate will be enthusiastic, ready to learn and willing to work in a team environment with specific assignments including utilization of computers, design standards and manuals. Some verbal and written presentation to clients, supervisors and others may be required. A strong work ethic and the ability to maintain business and professional relationships are essential.

Benefits include: Medical Insurance, Paid Sick Leave, Paid Vacation, 401(k)
